

The Paul Brady Signature Model

The new Paul Brady Signature Model from Lowden celebrates the unique connection between these two great Irish names which has existed since the early nineties. Paul Brady's songs have been widely covered on both sides of the Atlantic, often featuring memorable duets and collaborations. In recent times, Paul has chosen to use a mic on stage for his guitar rather than a pick-up system. He has been successful with this even when playing alongside his band at high volume levels. His Signature Model has been designed with extra projection to facilitate this mic-only set up.

Fans of both Irishmen will be delighted to welcome this addition to the Lowden Signature Models, each of which are made in recognition of great guitarists who have chosen to play Lowden.
