

The Richard Thompson Signature Model

"I am delighted to have worked with Richard on this project. He has been playing Lowden guitars since the 1980s, and his exceptional, unique talent has been widely influential over his lengthy career.

The "F" model particularly suits his playing style with its powerful yet more focussed voice and the combination of the rare Ziricote with selected Western Red Cedar provides a very warm and dynamic tone with articulate clarity.

I'm pleased our relationship has found such an expression in this guitar."
